ABOUT US

Allow me to introduce **UNIQUE LASER WORKS**, a specialized manufacturer and supplier dedicated to the precision industries. We excel in a comprehensive range of services including laser cutting, CNC bending, and the production of industrial nameplates. Our expertise lies in leveraging cutting-edge technologies to deliver high-precision solutions tailored to meet the specific needs of our clients.

At **UNIQUE LASER WORKS**, we are committed to maintaining the highest standards of quality and efficiency in every aspect of our operations. Whether you require intricate laser-cut components, precisely formed parts through CNC bending, or durable industrial nameplates for identification purposes, our skilled team is equipped to deliver exceptional results.

With a focus on **Innovation** and **Customer Satisfaction**, **UNIQUE LASER WORKS** stands ready to partner and collaborate with you to achieve your manufacturing goals effectively and reliably.

WE ARE
ESTABLISHED ON
2013 (11 YEARS).

More precisely, **UNIQUE LASER WORKS** offers precision cutting services using state-of-the-art CNC Laser Cutting Machines capable of handling various materials and sizes. Our in-house facilities feature **2 KW** and **6 Kw** Laser Cutting Machines, with a **12 KW** capability within our group, enabling us to cut materials up to 50mm in thickness.

At **UNIQUE LASER WORKS**, we not only execute job work according to client designs but also offer comprehensive in-house engineering services to tailor designs to meet specific client requirements. With a decade of specialization in this industry, our client base includes prestigious organizations in the city. We take pride in our track record of delivering satisfaction, having never received a single complaint since our inception.

In a nutshell, it would be an honour to add your esteemed organization to our list of satisfied clients, further enhancing our reputation in the industry.

We served the most of the MNC near Vadodara.

WORK SPACE

At **UNIQUE LASER WORKS**, we not only execute job work according to client designs but also offer comprehensive in-house engineering services to tailor designs to meet specific client requirements. With a decade of specialization in this industry, our client base includes prestigious organizations in the city. We take pride in our track record of delivering satisfaction, having never received a single complaint since our inception.

WORK AREA - 7650 SQ FT.

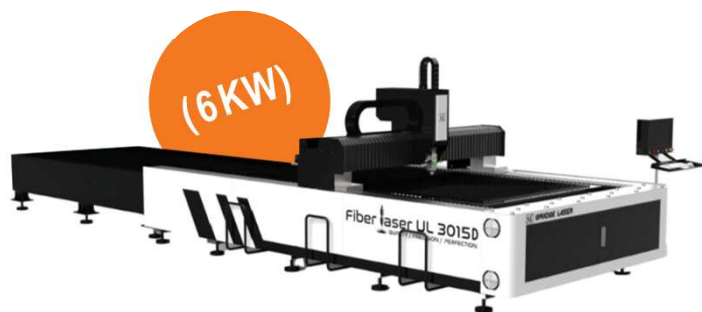

- In a nutshell, it would be an honour to add your esteemed organization to our list of satisfied clients, further enhancing our reputation in the industry.
- Factory & Its registered office are in common premises and in such vicinity where by all facilities & resources are within reach.
- This helps us to offer swift services to our valuable customers.
- **Office is equipped with all desired modern facilities -**
i.e. Wired in the Windows LAN Operating system & MS OFFICE 360, Printers, Scanners, CorelDraw, AutoCAD, ez cad, Rd works , cypcut etc.

FACTORY

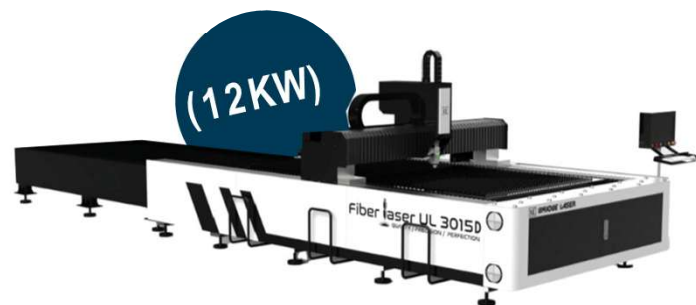

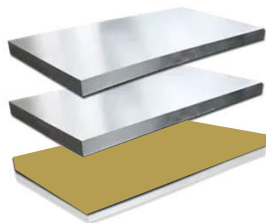

MACHINE LIST AND SPECIFICATION

CNC LASER CUTTING MACHINE

 Working Area 1500 X 3000 with Pallet Changer

- MS up to 25MM thk
- SS up to 16MM thk
- Al up to 10MM thk
- Brass up to 6MM thk

 Working area 2500X6500 with Pallet Changer

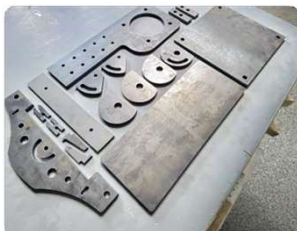

- MS up to 40MM thk
- SS up to 25MM thk
- Al up to 12MM thk
- Brass up to 12MM thk
